- ◆ SINGLE OR DOUBLE ROW DEBOSS CODER AVAILABLE

BOX DIMENSIONS

	LENGTH	WIDTH	DEPTH
MIN	1"	3/4"	4"
MAX	12"	5"	15"

DESCRIPTION:

The A. E. Randles EL-7000 is a hand load horizontal cartoner. The cartoner uses a rotary feeder to pull cartons from a hopper and place the open carton on transport lugs. The carton is moved into the hand loading area where the operator inserts the product into the carton. The carton moves past the loading area where the flaps are glued and tucked using a Nordson glue system. The machine is controlled by an Allen-Bradley MicroLogix 1100 PLC and Panelview Plus operator panel. Guarding is provided to comply with EN954 safety requirements.
